

Job Description for Angular Developer

Role	Angular Developer
Position Type	Full Time
Job Type	Experienced
Location	Gurgaon

About Us

At Digilytics™, we build and deliver easy to use AI products to the secured lending and consumer industry sectors. In an ever-crowded world of clever technology solutions looking for a problem to solve, our solutions start with a keen understanding of what creates and what destroys value in our clients' business.

Founded by Arindom Basu, the leadership of Digilytics™ is deeply rooted in leveraging disruptive technology to drive profitable business growth. With over 50 years of combined experience in technology-enabled change, the Digilytics™ leadership is focused on building a values-first firm that will stand the test of time.

We are currently focussed on developing a product, Revel FS, to revolutionise loan origination for mortgages and secured lending. We are also developing a second product, Revel CI, focused on improving trade (secondary) sales to consumer industry clients like auto and FMCG players.

The leadership strongly believes in the ethos of enabling intelligence across the organization. Digilytics AI is headquartered in London, with presence across India.

Our Values

F Free-thinking:

New technologies, business ideas, operating models

O Optimistic:

Deal with issues and challenges head-on

C Committed:

To deliver results and value for clients

A Analytical:

In designing solutions and managing execution

L Loyal:

To our clients and our employees

About the role

We are looking for experienced developers, who have the aspirations and appetite in working in a start-up environment, and with relevant industry experience to make a significant contribution to our Digilytics™ platform and solutions.

Responsibilities

- Implementing High quality applications using front end technologies like Angular JS or Angular latest versions.
- Wherever possible take part in backend implementation.
- Suggest better and suitable alternative technologies and frameworks.
- Interacting with clients and gathering and documenting business requirements and solution designs to a high degree
- Recruiting and managing other personnel as relevant and achieving a high performance for self and the team
- Ensuring that clients are satisfied and do not have any negative feedback about the Company and the Executives provision of services
- Understand the Digilytics™ vision and help in creating and maintaining a development roadmap
- Contribute to product development team and deliver product releases in a timely manner
- Ensure the quality of the product delivered
- Develop client-specific solutions using the product
- Liaise with multiple stakeholders and coordinate with our onshore and offshore entities

Expected and Desired Skills

- Strong programming skills and deep understanding of technical delivery
- Excellent understanding of analytical techniques and technology landscape
- Excellent problem-solving skills
- Good interpersonal skills and the ability to communicate ideas clearly at all levels
- Ability to work in unfamiliar business areas and to use your skills to create solutions
- Flexible approach to working environment and hours to meet the needs of the business and clients

Experience

- A start up mind set with proven experience working in both smaller and larger organisations having multicultural exposure
- Between 3-4 years of experience working closely with the relevant technologies, and developing world-class software and solutions

Education Background

- A Bachelors degree, or equivalent, preferably in Software Engineering and Computer Science
